### ● FK Overview

Founded in 2012, FK Consulting Services has evolved into a key provider of integrated financial, accounting, and regulatory advisory solutions.

Over the past decade, we have successfully completed 300+ projects for 200+ clients across various industries in Greece and abroad.

Core Service Lines.

Accounting & Payroll (120+ projects) – Preparation of financial statements under Greek GAAP, tax compliance, and full-scope payroll management.

IFRS (80+ projects) – Preparation and consolidation of IFRS financial statements for listed and international groups.

Consulting & Assurance related (100+ projects) – Due diligence, tax planning, management reporting, transfer pricing, business valuations, budgeting, risk assessments, and internal audits.

Our clients operate across sectors such as Energy, Financial Services, Construction, Real Estate, Healthcare, Shipping, Retail, Industry, and Information Technology.

### Relevant expertise

Our Partners are members of the Economic Chamber of Greece. They are also members of the Greek Institute of Certified Public Accountants (SOEL) and the Public Record for Individual Certified Auditors of the Hellenic Accounting and Auditing Standards Oversight Board (ELTE).

They have a significant work experience in providing financial services for over 20 years, as they have engaged in more than 700 projects (ie. Statutory and Tax Audits, Business Valuations, Special Audits, Due Diligences, Internal Audits, Business Transformations, Tax Planning, Transfer Pricing, Business Restructuring etc).

The Partners and the FK team are actively monitoring tax and accounting developments, along with business practices in order to sustain high level of expertise available to our existing and future clients.

We have the experience ("know-how") in order for you to obtain the full range of the services we provide in most Industries.

## INDUSTRIES WE HAVE GREAT EXPERIENCE

TRADE / MANUFACTURING / HOTEL & LEISURE / SERVICES / SHIPPING / TECHNOLOGY- MEDIA / STATE AGENCY / REAL ESTATE

---

At fk consulting services sa, we believe  
*knowledge is power.*

With *15+ years of cross-sector exposure* and executive experience, we don't just process data-we interpret it for strategic financial, tax, and accounting certainty.

---

# THE CHALLENGES MOST BUSINESSES *FACE TODAY*

- **Data Overload**

*PROBLEM* (Missed Opportunities)

Key strategic insights are buried, leading to slow decision-making and reactive planning

- **The Interpretation Gap**

*IMPACT* (Unnecessary Risk)

Tax exposure and accounting compliance issues are only discovered too late, leading to penalties or missed savings.

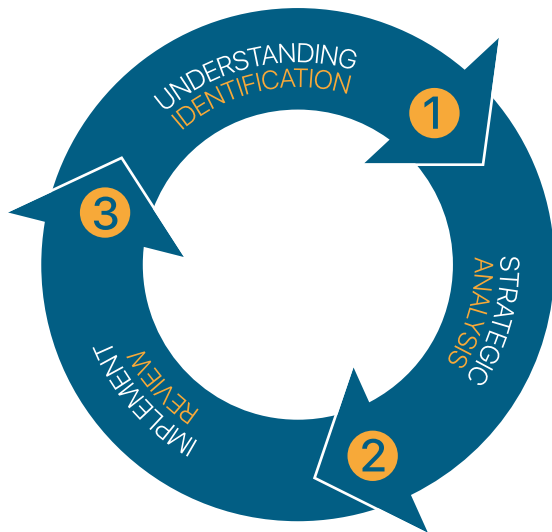

- **The Strategic Blind Spot**

*ASPIRATION* (Strategic Growth)

You need data to fuel your business strategy, not just satisfy compliance requirements.

See how we transform your numbers into clear, actionable intelligence.

# THE 3 - STEP APPROACH

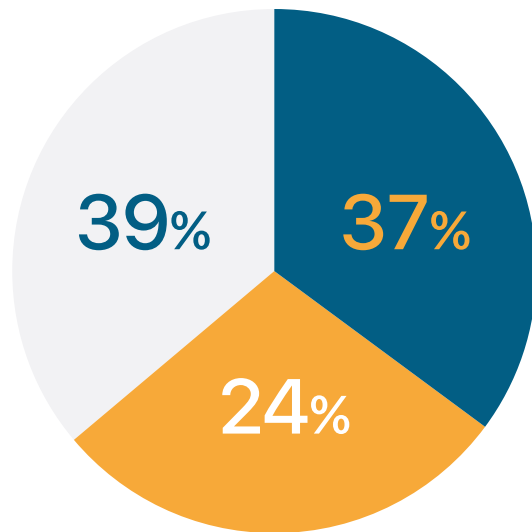

---

*"FK Consulting's deep diagnostic work ensures we don't just correct errors; we design robust systems that prevent costly pitfalls and secure optimal outcomes for every new business decision."*

---

- 1** We invest significant time to clarify goals and scope, making several inquiries with management and personnel to understand all major accounting and operational cycles.  
*Outcome for Client: A Diagnostic Report that isolates the specific pain points and risks buried within your current systems.*
- 2** We extensively review your Chart of Accounts, Trial Balance, Financial Statements, and other reports to interpret historical data and identify potential carried-forward pitfalls that need immediate and preventative action.  
*Outcome for Client: A Prioritized Roadmap that translates complex financial realities into simple, actionable steps for compliance and strategic growth.*
- 3** We don't just solve old problems; we ensure future success. We establish a standing protocol: instructing personnel to consult us in advance on all new or non-routine transactions.  
*Outcome for Client: Future-Proofing: Best results are secured before the transaction is executed, eliminating surprises and maximizing tax/accounting advantages.*
